

COLLECTING GAS BY WATER DISPLACEMENT

USING A BURET

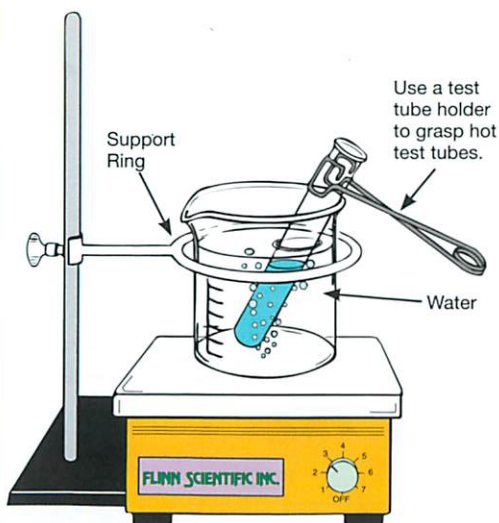

SETTING UP A VACUUM FILTRATION

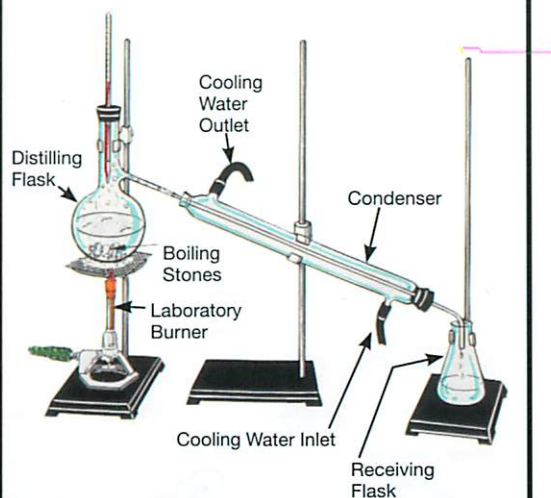

A safety trap is recommended to prevent water from backing up into filter flask. Both the filter flask and safety trap should be clamped to ring stands.

USING A HOT WATER BATH

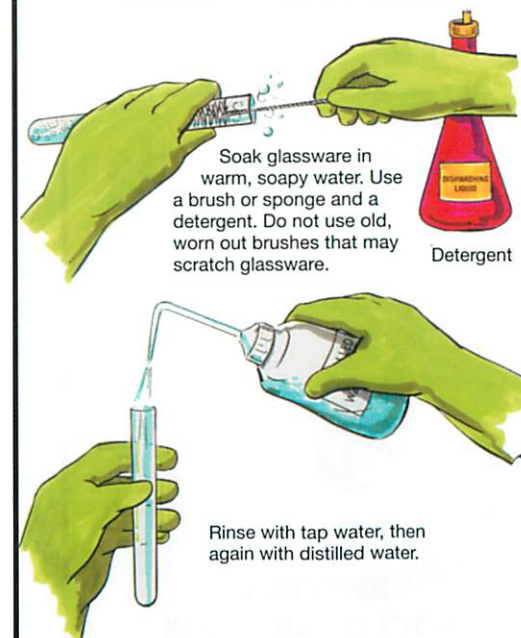

DISTILLING LIQUIDS

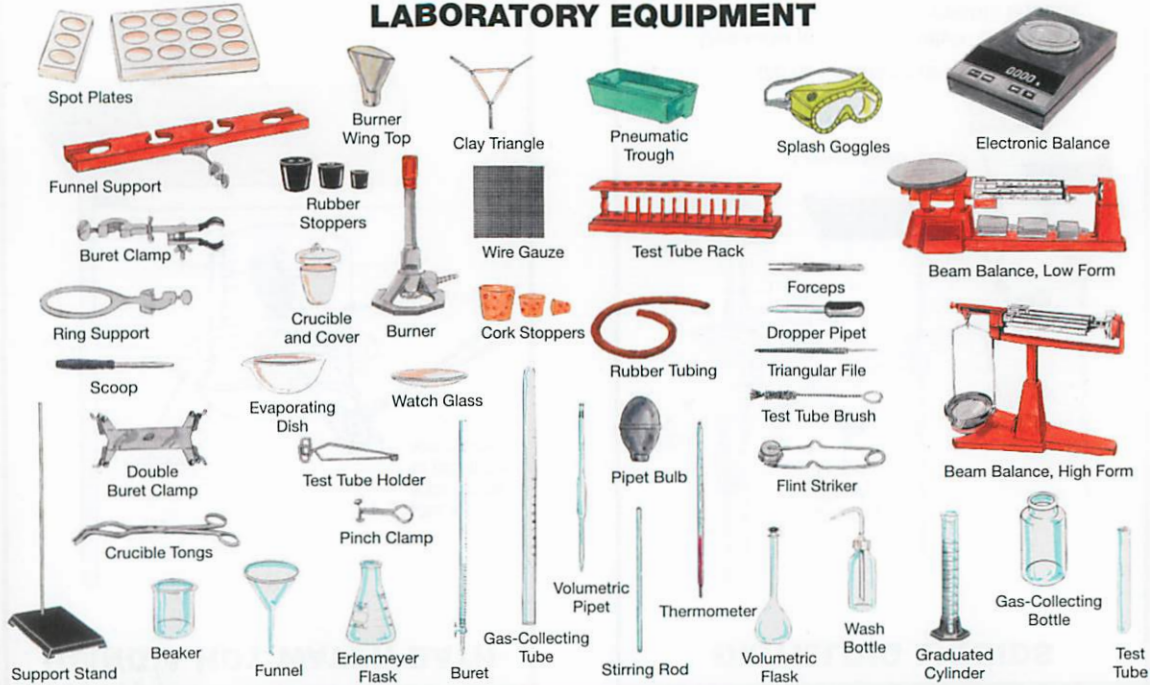

Do not distill to dryness.
Use extreme caution when distilling mixtures containing flammable liquids.

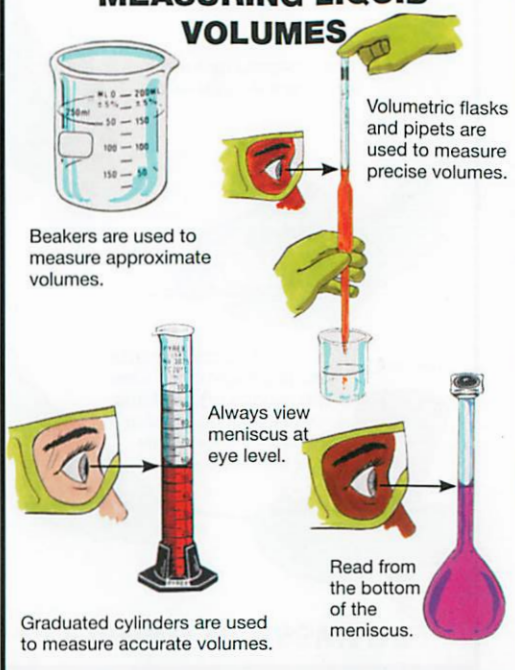

CLEANING GLASSWARE

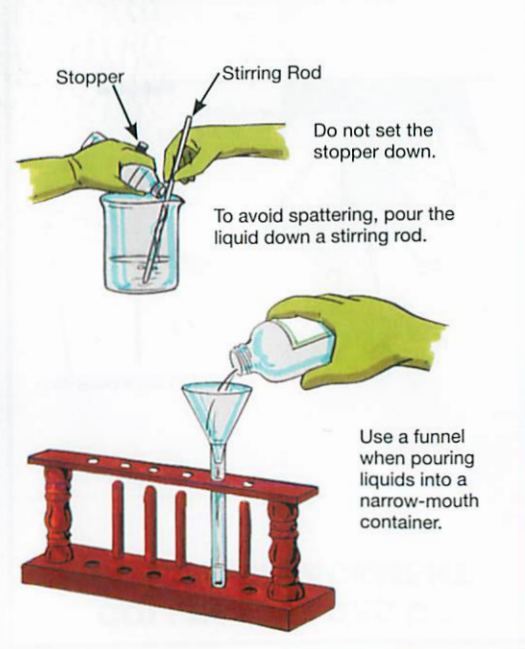

LABORATORY EQUIPMENT

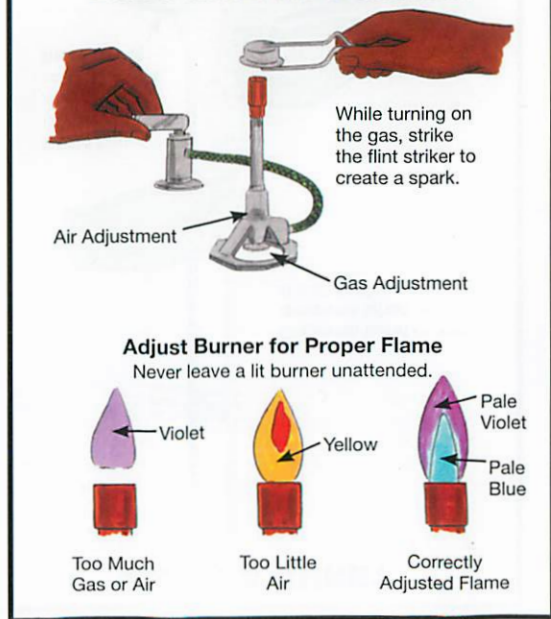

MEASURING LIQUID VOLUMES

TRANSFERRING LIQUIDS

LIGHTING A LABORATORY BURNER

HEATING A LIQUID
