## Example:

Gonna get a job, gonna work part-time,  
 Wanna know how, just listen to the rhyme.  
 Use my smarts—make a work portfolio,  
 'Cause it'll make me more employable.  
 First step is, find the items to collect  
 Letters of reference, do—not—forget.  
 Next up, go ahead and select.  
 Check that items are all correct.  
 After the interview I will reflect.  
 Everything I do, I will inspect.  
 When I am finished, the stuff gets stored.  
 With a file folder, my work gets drawer'd.  
 Peace!

When creating a rap, keep three things in mind:

- the beat,
- the phrasing, and
- the actual words.

You will find it easier to use a beat and phrasing from an artist you know—then create your own lyrics. Try it! (One example is completed for you.)
