

There will be no formal examinations this Quadmester. Instead, exam days (November 18 & 19) will be utilized as “Credit Rescue Days”.

Credit Rescue Days (November 18 & 19):

- This is an opportunity for students who have not yet met curriculum expectations to work with their teachers toward the goal of earning their credit.
- There will be no face-to face classes. All communication with teachers will be virtual only.
- Attendance will be taken on each of the Credit Rescue days as outlined below:
  - Students should be informed in advance of when to log in, see schedule below for course and cohort timing. Please note that there are 2 times on each day when attendance needs to be recorded in order to cover all students.
- **Credit recovery** may also take place on credit rescue days.
- Any face to face catch-up performance-based activities (i.e., lab work) must be completed prior to November 18<sup>th</sup> and not on Credit Rescue Days.
